Industry Institute Interaction Cell

Introduction:

To strengthen the relationship between industry and our institute, the Industry-Institution Interaction Cell has been established in the year 2018, which provides an excellent platform for both the students as well as the faculty members to be aware of industry expectations from the graduates. Industry-institute interaction is the most ideal activity for mutual benefit and growth of industries as well as institutions. The objective of the IIP Cell is to reduce the gap between industry expectations (practice) and academic offerings (theory) by direct involvement of industry to attain a symbiosis.

Functions:

- To co-ordinate all the activities related to placement and industrial training.
- To invite industries for campus drives.
- To arrange an industrial tour, industrial training and guest lectures.
- To initiate and co-ordinate for MoU with various industries.
- To maintain documents related to training, placement, MoU and campus drive.
